ONLINE COURSES

www.eltc.edu.my

mission

An innovative and creative ICT centre for language teaching

vision

To enhance English language teaching and learning pedagogy through optimal use of creative technology

objectives

To plan and manage a centre for e-learning in ELT

To plan and conduct courses on the use of 21st century technology in ELT

To design and develop technology-based innovative ELT materials

To offer consultancy services in related areas

online courses

For 2018, our main courses are

Google for Education I

This course provides educators with a complete overview of all the relevant applications and tools provided by Google for Education through its G Suite for Education.

Google for Education II

This course provides educators with supplemental and advanced application of all the relevant apps and tools provided by Google for Education through its G Suite for Education in addition to other peripheral apps, tools and resources made available through its products and services.

Digital Tools for 21st Century English Language Teaching

This course focuses on the integration of digital technologies as well as 21st century pedagogy into the ELT classroom.

This department also supports
